BUI THI THANH HUYEN

Frontend Developer Intern

0342012204

Ho Chi Minh City

buithithanhhuyen0404@gmail.com

github.com/thanhhuyen1304

SKILLS

Technicals Skills:

- **Languages:** JavaScript, TypeScript
- **Frontend:** ReactJS, HTML5, CSS3
- **Tools:** Git, GitHub

Soft Skills: Teamwork, communication, self-learning

EDUCATION

Ho Chi Minh City University of Technology - HUTECH

2022 - 2026

Major: Software Engineering

- **GPA: 3.44/4.0**
- Outstanding Student for 2 consecutive years (2023-2024, 2024-2025)

CAREER OBJECTIVE

My short-term: To apply for a **Frontend Developer Internship** to improve my technical skills, gain a better understanding of the software development process, and accumulate practical experience in a professional working environment.

My long-term: To become a **specialized Frontend Developer** capable of building optimized, high-performance products and delivering the best user experience.

PROJECTS

BugHunter – A Programming Learning Platform Through Debugging

ReactJS, TypeScript, TailwindCSS - Frontend Developer

Team: 2 members

Technicals: ReactJS, TypeScript, TailwindCSS, REST API, Responsive Design, Git

Project Links:

- **Demo:** hunterbug.vercel.app
- **GitHub:** github.com/diendan2427/Deploy

Description: A web-based platform that enables users to improve programming skills through real-time debugging challenges and competitive PvP coding battles, featuring an in-browser coding environment similar to VS Code.

Contribution:

- Developed a **real-time PvP coding system** using ReactJS and WebSocket (Socket.IO)
- Built an in-browser coding environment using **Monaco Editor**
- Designed and implemented **reusable UI components** for scalability and maintainability
- **Integrated RESTful APIs** to fetch and display challenge data, leaderboard rankings, and user information
- Synchronized real-time data between users to ensure **consistent and live updates**
- Developed **responsive UI using TailwindCSS**
- Implemented **authentication (OAuth)** on the frontend

GiftMate – E-commerce Management Website

HTML5, CSS3, JavaScript - Frontend Developer

Team: 4 members

Technicals: HTML5, CSS3, JavaScript, REST API , Git

Project Links: GitHub: github.com/thanhhuyen1304/DoAnCoSo

Description: A web-based e-commerce platform that allows users to browse, view, and interact with gift products, providing a simple and user-friendly shopping experience.

Contribution:

- Developed the frontend for an **website using HTML, CSS, and JavaScript**
- Implemented features for **product listing, product details, and user interactions**
- Handled **DOM manipulation and event handling** to enhance interactivity
- Integrated **REST APIs** to fetch and display dynamic product data
- Built **responsive layouts** for multiple screen sizes
